ACADEMIC PROJECT

Community Service Project on “Health and Hygiene and Socio Economic Status” 28 Days

Collected data from 50 households using a set of 26 questionnaires covering Family Details, Health Issues, and other related topics.

- I analyzed the collected data and visually represented it using pictorial forms.
- Issues such as damaged street lights, overflowing drainage water, and clogged drains were identified.
- The primary goal of this project is to raise awareness about health and hygiene within our local community, emphasizing that “Change Begins At Home.”
